

APPLICATION FOR EXEMPTION FROM VACCINATION AGAINST COVID-19

GENERAL INSTRUCTIONS

The Health Department of the Government of Puerto Rico, through administrative order no. 2021-509, has ordered that no student or child over 12 years of age may be admitted in person to a school or university if they are not vaccinated against COVID-19.

Article 5 of Law 25 from September 25, 1983 provides, as the only exceptions to the vaccination requirement provided in the administrative order, that the student has medical reasons or professes a religion whose dogmas do not allow being vaccinated against COVID-19.

In the case of a medical reason for not being able to be vaccinated, the student's application must be accompanied by a certification from an **authorized doctor** that demonstrates that one or more of the vaccines required by the Health Secretary can be detrimental to the student's health. The certification must specify the medical reason and the possible duration of the condition or circumstances that prevent vaccination.

In the case of religious exemptions to the vaccine, the student must present a sworn affidavit in which they or their parents certify that they profess a religion whose dogmas are in direct conflict with immunization from COVID-19. The sworn statement must include the name of the religion or sect they belong to and must be signed by the student, their parents or guardians in the case of a student who is still a minor, and by the minister of the religious community or sect that they profess. The Inter American University of Puerto Rico reserves the right to request additional information, if they believe the sworn affidavit does not contain enough information to evaluate the application.

Once the application is completed, the student must send it with the corresponding evidence, by email, to the Dean of Students of their academic unit:
